The image shows a vertical calendar page with a grid. On the left side, there is a vertical axis with a scale from 9 to 21. The axis is marked with dots and numbers: 9, 12, 15, 18, and 21. The grid consists of 12 columns and 12 rows. At the top and bottom of the page, there are shaded header and footer areas. Each shaded area contains a vertical line on the left, two small squares in the middle, and three larger squares on the right. The top shaded area has three squares, and the bottom shaded area has three squares. The grid is divided into two sections by a horizontal line at the 12 mark on the vertical axis.
